

COFLEXIP HOSE

Coflexip Hose

Coflexip Hose

Coflexip hoses offer many advantages over conventional flowlines in that they are available in longer sections, provide better corrosion resistance, and have lower fluid restrictions, e.g., no elbows in the line.

By design, a coflexip hose is extremely resistant to internal pressure and tensile forces. Coflexip hoses are extremely stable under pressure. In addition, coflexip hoses will not pulsate or whip during high flow rates.

TETRA PRODUCTION TESTING SERVICES

TECHNICAL SPECIFICATION

Working Pressures:	34.47, 68.95, 103.42 MPa (5,000, 10,000, 15,000 psi)
Working Temperature Range:	-15°C to 100°C (4°F to 212°F)
Service:	H ₂ S
Internal Diameter:	5 centimeters (2 inches) or 8 centimeters (3 inches)
Length:	12.2 to 30.5 meters (40 to 100 feet)
Weight:	1,588 to 1,860 kilograms (3,500 to 4,100 pounds)
Basket Dimensions (L x W x H):	3.7 x 2.4 x 0.91 meters (12 x 8 x 3 feet)
Weight:	2,268 kilograms (5,000 pounds)
